Alaska Time 2022

Weekly Calendar Planner

Editor's Note

This award-winning calendar makes its way to every state in the US and worldwide to Australia, Japan, Switzerland, Germany, India, Brazil, and many more countries. What is it about Alaska that resonates with people from around the world? Perhaps when we witness wildlife in a majestic, untrammeled landscape, it kindles in us a sense of connection with wild places? In 1899, The Harriman expedition sailed to Alaska with a diverse team of scientists and explorers. Henry Gannett, a geographer on board, wrote this piece of advice for future visitors to Alaska:

> *"There is one word of advice and caution to be given to those intending to visit Alaska... If you are old, go by all means, but if you are young, wait. The scenery of Alaska is much grander than anything else of its kind in the world, and it is not wise to dull one's capacity for enjoyment by seeing the finest first."*

While a world pandemic seems to have changed us forever, one thing remains true. Now more than ever, a connection with nature is as essential as it is invaluable. It's my sincere hope that the pictures you find in these pages ignite your continued appreciation for Alaska's wild beauty and wilderness riches. Through our thoughtful stewardship, we can ensure that such treasures remain for many years to come. A warm and gracious thank you to all of you throughout the world who enjoy Alaska through this small publication.

Sincerely,
Patrick J Endres
